

Declaration of REACH

According to Regulation (EC) No. 1907/2006 of the European Parliament and the Council concerning the Registration, Evaluation, Authorization and Restriction of Chemicals states that the product for the REACH restriction substance needs to be registered.

Florite has identified in the spirit of the REACH regulation, for the purpose of maintaining future environmental and health, we should take this responsibility for controlling hazardous substances. For this reason, our products are not necessary to register it because it is in the scope of management of the REACH regulation.

We will meet our obligation according to REACH, if further substances of content or our products (starting with a content of more than 0.1% in weight) are classified by the European chemicals agency to be of special concern, as soon as we obtain respective information from our suppliers. The required exchange of information will be supported by selective inquiries within the delivery chain.

We are continually striving to meet all relevant legal regulation across the whole life cycle of our products. This includes the information related to environmental protection, quality and occupational health and safety towards our business partners and public relations.

All Florite Instrumentation

500 Series—700 Series—900 Series—Model N920—Model 991R—Model 990X

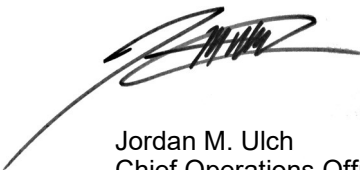

As manufacturer and/or supplier of above mentioned part, we are aware that product (article) manufacturers and importers in Europe are obliged under Article 33 of REACH to notify all recipients of any articles that contain chemicals on the Substances of Very High Concern (SVHC) candidate list above a 0.1% concentration (by weight per article). We declare that we have reviewed the above mentioned product for content of SVHC's.

The product (article) mentioned above (select the appropriate statement):

<input checked="" type="checkbox"/>	does not contain substances on the REACH SVHC candidate list in concentrations greater than 0.1% by weight per article.
<input type="checkbox"/>	does contain substances on the REACH SVHC candidate list in concentrations greater than 0.1% by weight per article. The details are listed in the table below.
<input type="checkbox"/>	are in compliance to the restrictions listed in Annex XVII of REACH .

We will continue to monitor the developments of the REACH legislation and are committed to meeting our responsibilities as an environmentally-responsible company. The complete list of SVHC was referenced from the ECHA European Chemical Agency weblink: <http://echa.europa.eu/web/guest/candidate-list-table>

The signature below is of the Company's designated personnel with delegated product compliance responsibility and verified that to the best of our knowledge the statements above are valid and accurate.
